## Objective

---

Seeking an opportunity to expand on interests in computer science and develop interesting and successful code.

## Education

---

2009-present	Bachelors of Arts in Computer Science University of Minnesota	Expected graduation: Fall 2014
2006-2007	Associates of Science- Audio Production & Engineering Institute of Production & Recording	

## Relevant Experience

---

- Webapp built with backbone/underscore and flask for html5 audio streaming from a server.
- Contributed to large Django codebase creating a custom branding page to manipulate all the icon colors and other batch functions
- Created and maintained an app for scraping and interacting with U of M classroom data. (built in small group in spare time)
- Django/Nginx/UWSGI stack experience
- Website creation from scratch (Django, Flask, Node, etc)
- Built and maintained Buildbot CI server
- Worked in pair programming to develop a FeedReader on the Android platform
- Python projects using iterative development (cgi, sockets, etc)

## Work History

---

June - September 2012	Entry-level Developer	Minneapolis, MN
	<b>SparkWeave</b>	
	<ul style="list-style-type: none"><li>• Built and maintained a CI server for github pushes</li><li>• Worked in a small team under iterative development</li><li>• Understand &amp; extend a large Django/python codebase</li></ul>	

2008-2012

*Board-op and producer*

**Genesis Communications Network**

Eagan, MN

- wrote skeleton of an automated recording system and archive logger in python.
- Customer support and fast troubleshooting skills
